Operating Temperature Range:

+0.0/+650.0 degrees fahrenheit

End Application:

Nuclear reactors program

Unit Type:

Protective tube

Accommodated Wire Awg Size:

20

Criticality Code Justification:

Feat

Special Features:

With pipe clamp 1.062 in. Min, 2.000 in. Maximum inside dia

Material:

Plastic outer jacket insulation/sheathing

Terminal Type And Quantity:

1 plug

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A27600
