Overall Length:

25.000 inches

Operating Temperature Range:

+0.0/+650.0 degrees fahrenheit

End Application:

Nuclear reactors program

Unit Type:

Protective tube

Accommodated Wire Awg Size:

20

Material:

Plastic outer jacket insulation/sheathing

Terminal Type And Quantity:

2 plug

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
