Operating Temperature Range:

+110.0/+244.0 degrees fahrenheit

Power Source:

External

Indication Method:

Transmitting thermometer scale

Sensing Element Type And Location:

Capillary tube remote

Special Features:

Dial is two-position action; w/ a non-compensated capillary 15 ft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
