Overall Length:

12.850 inches

Overall Height:

4.130 inches

Overall Width:

8.050 inches

Operating Temperature Range:

+0.0/+50.0 degrees celsius

Measurement Type:

Digital

Display Type:

Light emitting diode

Display Digit Quantity:

5

Measurement Range:

-183.0/+480.0 degrees celsius

Product Name:

Rtd digital thermometer; thermometry system

Environmental Attribute Code:

Non-mercury alternative - medical products - thermometers

Special Features:

The 2189a thermometry system consists of a 2180a digital thermometer, nsn 6685-01-136-3630, and a y2039 platinum rtd probe for greater accuracy; capable of running off of 12 vdc or 100, 120, 220, 240 vac selectable, 50 to 400 hz, 8w; weight 2.1 kg; display f or c switch selectable, 7 segment led; resolution 0.01 deg

Style Designator:

Portable, bench

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
