Overall Length:

54.500 inches

Outside Diameter:

0.250 inches

Operating Temperature Range:

-200.0/+260.0 degrees celsius

End Application:

Propulsion console

Unit Type:

Protective tube

Accommodated Contact Type And Quantity:

3 wire lead

Terminal Type And Quantity:

3 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
