**Overall Length:**

9.750 inches

**Overall Diameter:**

2.000 inches

**Calibration Type:**

Deg celsius

**Instrument Calibration Range:**

Silver freeze temp. 961.83 degrees c

**Special Features:**

Item includes a well for the thermometer under test; quartz sealed envelope; it contains an inert gas at a pressure of 1 standard atmosphere at the freezing temperature

**Functional Description:**

Uses defining and reference fixed points based on the freezing temp of metals to calibrate thermometers

**Shape:**

Rectangular

**Supplementary Features:**

Manufacturers name: fixed point reference cell

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T263-b
