End Application:

Part of complete assembly model 615 recording thermometer

Accessory Components And Quantity:

Chart 1; pen 1

Operating Range:

-70.0/+240.0 degrees fahrenheit

Information Recorded:

Temperature

Recording Method:

Ink pen on recording chart

Chart Drive Method:

Spring clock movement

Special Features:

Item is a jewel balanced, mechanically powered spring wound recorder; weight 2 lbs; mechanically attaches to end rings and stage containers during shipment and storage; automatically graphs environmental temp conditions experienced by the missile stage iv during shipment and storage; unit can operate for at least 7 days; power unit indicates remaining power service life

Supplementary Features:

Manufacturers group: temperature environmental monitor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-a
