Overall Length:

14.500 inches

Overall Height:

5.062 inches

Overall Width:

2.375 inches

End Application:

Microprocessor-based modular flow instrumentation system

Special Features:

Power 120/240 vac, 50/440 hz; frequency range 12 to 2600 hz; ambient operating temperature 32 to 140 degrees f; led display

Functional Description:

Used with the system 8550 flowmeter and linearizer module

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
