Overall Length:

36.000 inches

Unthreaded Mounting Hole Diameter:

0.195 inches

Operating Temperature Range:

+0.0/+482.0 degrees celsius

Unit Type:

Gasket

Mounting Facility Type And Quantity:

1 hole

Accommodated Wire Awg Size:

4

Features Provided:

Gasket

Functional Description:

Measuring surf temp under a bolt; washer thermocouple no. 10 size

Material:

Nickel alloy

Material Specification:

Chromel alumel mfr ref single material response

Type/model Designation:

Wtk

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
