Design Type:

Fluctuating

Scale Type:

Stem

Immersion Length:

76.0 millimeters

Actuating Medium:

Liquid

Scale Adjustment Variation:

1 degree

Scale Measurement Range:

-20.000/+110.000 degrees fahrenheit

Product Name:

Thermometer self-indicating liquid in glass -20to110deg f stem

Special Features:

Felt-lined leatherette case; nbs certified

Material:

Glass

Style Designator:

Piercing point

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
