Case Material:

Aluminum, cast

Operating Temperature Range:

+0.0/+150.0 degrees celsius

Maximum Voltage Rating In Volts:

100.0 ac or 270.0 ac

Inclosure Type:

Encased

Terminal Location:

Back

Power Source:

External

Mounting Method:

Panel

Terminal Type And Quantity:

1 connector plug

Maximumlength:

9.000 inches

Maximumwidth:

9.469 inches

Maximumheight:

3.469 inches

Indication Method:

Transmitting electrical digital display

Special Features:

1/2 rack module and heater shell

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
