Actuation Type:

Pressure inflation monitor

Adjustability:

Nonadjustable

Scale Range:

+0.0/+200.0 pounds pressure per square inch

Scale Name:

Pressure

Pointer Color:

Any acceptable

Pointer Type:

Indicating

Scale Type:

Circular

Scale Smallest Increment:

5.0 pounds per square inch

Actuating Element Material:

Plastic

Scale Name For Which Pointer Is Designed:

Pressure

Connector Type Vent:

Provided

Product Name:

Gage pressure dial indicating 0.0-200 per sq in range ster disp

Special Features:

Used with balloon dilation catheters; sterile; disposable; peel-open packages

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
