Accessory Components And Quantity:

Adc board p/n 2222390-8001 1; rtd preamps p/n 2215930-8102 1; humidity sensor system p/n hs-3552-b 1; humidity transmitter p/n rh-515 1; temperature sensor unit p/n t-100-c-8-4-36 1

Operating Range:

+10.0/+70.0 percent and +60.0/+90.0 degrees fahrenheit

Information Recorded:

Relative humidity and temperature

Special Features:

3 channel expansion kit and sensors to expand the hy-cal esd-955 system to 6 channels

Supplementary Features:

Manufacturers name: expansion kit for temp-humidity recording system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T206-a
