**Case Material:**

Steel

**Maximum Voltage Rating In Volts:**

115.0 ac

**Inclosure Type:**

Encased

**Maximumlength:**

16.000 inches

**Maximumwidth:**

14.000 inches

**Maximumheight:**

7.750 inches

**Special Features:**

Battery back up circuit for momentary power loss; 0 to 2000 degrees f; typek thermocouple; audible and visual alarms; self test feature; led display

**Frequency In Hertz:**

60.0

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A31700
