Case Material:

Steel

Maximum Voltage Rating In Volts:

115.0 ac

Inclosure Type:

Encased

Maximumlength:

16.000 inches

Maximumwidth:

14.000 inches

Maximumheight:

7.750 inches

Special Features:

Battery back up circuit for momentary power loss; 0 to 2000 degrees f; typek thermocouple; audible and visual alarms; self test feature; led display

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
