End Application:

An/alq-172v1 and an/alq-1722

Presentation Type:

Digital display

Scale Range:

+0.1/+72.0 pressure single indicator single scale

Display Type:

Liquid crystal

Display Digit Quantity:

8

Product Name:

Digital manometer

Special Features:

8accuracy +/- 0.05% of reading; display 8 digit (4 differential pressure and 4 voltage or current; digits 0.3 inch high; operating temp -20 to +122 degrees f; power rechargeable ni-cad battery; pressure differential 0 to 200 inches h2o (0 to 72 psi)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A533y0
