Actuation Type:

Pressure bellows

Scale Range:

+0.0/+30.0 inches of water pressure

Scale Name:

Pounds pressure

Dial Size:

4-1/2 in.

Scale Type:

Dial

Actuating Element Material:

Nickel alloy and copper and iron

Criticality Code Justification:

Zzzy

Special Features:

Case type- phenol turret black, connection- 1/4 in npt lower stem

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T179-b
