End Application:

F110ge129 aircraft engine

Unit Type:

Protective tube

Product Name:

Sensor, inlet temperature

Special Features:

Senses inlet air temperature on turbine engines; thermister type element; volecity air pick-up; 2 m83723/90y08986 connectors; mounted with 4 bolts

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A27600
