Overall Length:

13.000 inches

Overall Height:

3.500 inches

Overall Width:

3.375 inches

Graduation Unit:

Torrsp0.1

Actuation Type:

Capacitance

Scale Range:

Torrsp0.0/p10.0 and torrsp0.0/p100.0

Scale Name:

Vacuum

Scale Type:

Digital led

Scale Smallest Increment:

Torrsp0.1

Scale Accuracy:

0.5 pct

Actuating Element Material:

Inconel

Special Features:

Power requirement for model 80-6b power supply and display is commercial 50/60 hertz; for the cmla sensor it is +/- 15vdc at 30 milliamps; output from sensor is 0/10vdc; overpressure rating 17 psig or 125 percent; ambient temp.Operating range 0/45 degrees c.; barrier strip connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
