Overall Length:

8.050 inches

Overall Height:

1.880 inches

Overall Width:

3.780 inches

Operating Temperature Range:

+32.0/+122.0 degrees fahrenheit

End Application:

Elec test sta

Voltage Rating In Volts:

115.0 ac

Measurement Type:

Digital

Display Type:

Light emitting diode

Display Digit Quantity:

4

Measurement Range:

-99.8/+752.0 degrees fahrenheit

Environmental Attribute Code:

Non-mercury alternative - medical products - thermometers

Special Features:

Reads celsius or fahrenheit; stor.Temp. Minus 40 deg.F to pos. 167 deg. F; 50 to 440 hz; led is 0.56 in. High; uses type t thermocouple

Style Designator:

Panel mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
