Operating Temperature Range:

-40.0/+125.0 degrees fahrenheit

Maximum Voltage Rating In Volts:

102.0 ac or 132.0 ac

End Application:

Control panel on a firetube heating boiler p/n jb-11p-3-1-r/h onboard 378 ft whec cg vessels

Power Source:

Self-contained

Special Features:

Consists of transformer p/n d10-5022; control p/n 70d10; programmer p/n 71d60; amplifier p/n 72dir1; base p/n 60-1466-2; control programmer monitors all startup and shutdown sequences

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
