Current Type:

Ac

Ac Voltage Rating:

110.0 volts

Frequency Rating:

60.0 hertz

Scale Range:

-199.9/+800.0 temperature single indicator single scale

Electrical Connection Quantity:

2

Fuse Current Rating In Amps:

0.5

Case Material:

Aluminum alloy

Phase:

Single

Special Features:

Display units in kelvin, celsius, fahrenheit, and resistance scales; indicates the number of the probe used; operating temperature range 0/60 celsius; 10 watt; with bench top tilt stand; ieee-488computer interface; includes platinum resistance thermometer probe of 100 ohm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A533y0
