NSN 6685-01-377-4636

Electrical Resistance Temperature Transmitter - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6685-01-377-4636

Special Features:

Sensor, inlet pressure and temperature, flange mounted pick-up that protrudes into the inlet air stream which contains a heater to prevent

iceing and a t12 thermister to create a signal corresponding to air temperature

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A27600
