Indicating Temperature Control - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6685-01-392-4485

End Application:
Pacer dawn; high frequency search system palantirii
Operating Range:
30 degrees f to 130 degrees f
Power Source:
External
Product Name:
Controller, temperature electronic
Special Features:
Aautomatic reset temp control with an spdt relay output and led indication; has switch selectable heating and cooling modes of operation,
djustable differential and interchangeable temp sensors
requency In Hertz:
0.0 and 60.0
Shelf Life:
I/a
Init Of Measure:
-
Demilitarization:
No.
Fiig:
A31700
