End Application:

Pacer dawn; high frequency search system palantirii

Operating Range:

30 degrees f to 130 degrees f

Power Source:

External

Product Name:

Controller, temperature electronic

Special Features:

Automatic reset temp control with an spdt relay output and led indication; has switch selectable heating and cooling modes of operation, adjustable differential and interchangeable temp sensors

Frequency In Hertz:

50.0 and 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
