**End Application:**

F110ge100 aircraft engine

**Unit Type:**

Protective tube

**Product Name:**

Sensor, inlet temperature

**Special Features:**

Senses inlet air temperature on turbine engines; thermister type element; velocity air pick-up; 2 m83723/90y08986 electrical connectors; mounted with 4 bolts

**Material:**

Copper alloy

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A27600
