Operating Temperature Range:

+0.0/+1100.0 degrees fahrenheit

End Application:

Pacer dawn

Unit Type:

Bimetallic

Accommodated Wire Awg Size:

18

Immersion Length:

6.000 inches

Special Features:

1/16 in diameter sheath, grounded thermocouple, 2 male pin quick disconnect, ceramic

Material:

Steel comp 304 protective tube and nickel alloy protective tube

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27600
