Operating Temperature Range:

+0.0/+800.0 degrees fahrenheit

End Application:

Pacer dawn

Unit Type:

Bimetallic

Accommodated Wire Awg Size:

28

Immersion Length:

6.000 inches

Special Features:

1/25 in diameter sheath, grounded thermocouple, 2 male pin quick disconnect, enclosed in a fitting assembly with a 1/4 inch a/n pressure port

Material:

Steel comp 304 protective tube and nickel alloy protective tube

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27600
