Operating Temperature Range:

+0.0/+500.0 degrees fahrenheit

End Application:

Pacer dawn

Unit Type:

Bimetallic

Accommodated Wire Awg Size:

20

Immersion Length:

12.000 inches

Special Features:

1/16 inch diameter sheath, grounded junction, 2 pin male quick disconnect

Material:

Steel comp 304 protective tube or copper alloy protective tube

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27600
