**Width:**

10.750 inches

**Current Type:**

Ac

**Ac Voltage Rating:**

115.0 volts

**Frequency Rating:**

60.0 hertz

**Depth:**

9.875 inches

**Scale Range:**

+0.1/+500.0 pounds per square inch single indicator 2nd scale

**Display Type:**

Light emitting diode (I.E.D.).

**Display Digit Quantity:**

5

**Case Material:**

Steel

**Product Name:**

Digital pressure indicator

**Phase:**

Single

**Special Features:**

Pressure scales are switch selectable; zero adjust button; gage and absolute button; engineering units conversion button; calibration button; .05% accuracy full scale; pressure connection an-4; 10 selectable engineering units; protected by 1/4 amp fuse; bench or rack mounting; n.I.S.T. Traceable; used for calibration purposes

**Height:**

4.875 inches

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A533y0
