Overall Diameter:

2.280 inches

Case Material:

Plastic

End Application:

Preprovisioning support navicp is poe

Scale Range:

+38.0/+116.0 degrees celsius and +100.0/+240.0 degrees fahrenheit

Scale Name:

Temperature

Scale Type:

Concentric dial

Scale Length:

1.852 inches

Special Features:

Range 0-280 deg.F

Supplementary Features:

Includes 24vdc red ullumination, low profile black bezel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
