End Application:

Preprovisioning support navicp is poe

Usage Design:

Precharge pressures of hydrolic system accumulators

Graduation Unit:

200.0 bar

Actuation Type:

Bourdon tube

Scale Range:

+0.0/+4000.0 pounds pressure per square inch

Scale Name:

Pressure

Pointer Color:

Silver

Scale Type:

Dial

Scale Smallest Increment:

200.0 pounds per square inch

Scale Accuracy:

80psi)from 1, 500-2, 500psi (160psi) from 3, 000-4, 000psi

Actuating Element Material:

Nickel alloy

Connector Type Vent:

Not provided

Special Features:

Case-aluminum alloy; crystal-tempered glass

Supplementary Features:

1.5in.Dia; 1.25 maximum depth; square 1.75in. 4 holes0.170 dia

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-b
