Overall Diameter:

7.500 inches

End Application:

1678as100-1-2

Actuation Type:

Bellows

Scale Range:

+0.0/+123.0 inches of water and +0.0/+2000.0 gallons of liquid oxygen

Scale Name:

Gallons of oxygen

Connection Quantity:

1

Pointer Color:

Any acceptable

Scale Type:

Dial

Scale Smallest Increment:

25.0 gallons

Connection Type:

External

Actuating Element Material:

Beryllium copper

Connection Location:

Back

Connection Size:

0.750in ftp bracket connection

Connector Type Vent:

Provided

Special Features:

Housing material; forged brass; black on white background; media; cryogenic gases

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
