Operating Temperature Range:

-50.000/+260.000 degrees celsius

End Application:

Main generator, part number f2216aag01 aboard 430 ft wagb coast guard vessels

Special Features:

Cast iron connection head conduit thread 3/4 - 14npt; insertion depth 6.7"; platinum sensing element; pressure rating 100 psi; stainless steel probe case; copper alloy tip

Style Designator:

Integrally-mounted element

Terminal Type And Quantity:

3 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27600
