Operating Temperature Range:

+0.0/+50.0 degrees celsius

Voltage Rating In Volts:

9.0 dc

Display Type:

Liquid crystal

Display Digit Quantity:

4

Measurement Range:

-18.0/+870.0 degrees celsius

Scale Accuracy Rating:

1.0 degrees celcius full range of scale

Environmental Attribute Code:

Non-mercury alternative - medical products - thermometers

Special Features:

Laser sight thermometer uses 9vdc alkaline battery

Style Designator:

Portable, selector switch

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
