Overall Diameter:

2.000 inches

End Application:

A/s 37a-3 mobile electric power plant

Scale Range:

+0.0/+60.0 pounds per square inch

Scale Type:

Dial

Special Features:

Lower mount, glycerine filled, stainless steel case, brass internal, 1.6 accuracy, full scale deflection, phosphor bronze bourdon tube, vacuum to 15,000 psi range, dual scale, temperature range, negative 40 degrees to positive one-hundred eighty degrees fahrenheit, bronze connection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
