Overall Length:

8.000 inches

Overall Diameter:

1.750 inches

Product Name:

Thermometer bimetal dial self indicating 0-100 degrees celsius

Special Features:

Bimetal dial thermometer, self indicating, 0 to 100 degrees celsius scale, 1 degrees subdivision, high visibility dial graphics enhanced by extended scale design. Uses nearly the entire perimeter of the dial face. Prevents calibration shifts from shock or vibration. Slim 0.142 in. Diameter stem and sensitive bimetal coil provides fast temperature response. Stainless steel construction. Read accuracy plus or minus 1 % of dial range at any dial point. Scales are adjustable to permit recalibration when necessary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
