Overall Height:

7.000 inches

Mounting Method:

Any acceptable

Flow Control Device:

Any acceptable

End Application:

Compressor unit reciprocating

Largest Outside Diameter:

3.062 inches

Usage Design:

Control temperature

Thermostat Type:

Any acceptable

Opening Temperature Rating:

70.0 degrees fahrenheit

Spring Operated Pressure Relief:

Not provided

Special Features:

Self-actuate temperature regulating value with external sense; this model has a stainless steel well

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T121-c
