Overall Length:

2.500 inches

Overall Diameter:

0.500 inches

Operating Temperature Range:

-30.0/+70.0 degrees celsius

Physical Form:

Closed

Contact Type:

Connector plug

Actuation Type:

Thermal

Operation Type:

Direct

Special Features:

0dry bulb temp sensor designed for measurement of ambient air tem; db sensor consists of open ended stainless steel tube, a glass thermistor, a eeprom and housing; thermistor is calibrated at 3-points; operating temp minus 30 to 70 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514m0
