Operating Temperature Range:

-40.0/+120.0 degrees celsius

Voltage Rating In Volts:

110.0 ac

Measurement Type:

Digital

Display Type:

Light emitting diode

Display Digit Quantity:

3

Measurement Range:

-40.0/+120.0 degrees celsius

Environmental Attribute Code:

Non-mercury alternative - medical products - thermometers

Special Features:

Line length, 8 ft.

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
