Width:

9.500 inches

Current Type:

Ac

Ac Voltage Rating:

Between 90.0 volts and 264.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Depth:

9.000 inches

End Application:

Reentry system test se (rstse)

Presentation Type:

Digital display

Electrical Connection Quantity:

1

Mounting Facility Type And Quantity:

4 panel

Display Type:

Liquid crystal

Product Name:

Controller, pid pressure, digital type 651c

Phase:

Single

Special Features:

Includes adjustable soft-start functions for each set point, as well as open & close functions to minimize turbulence in the chamber; local/remote transducer zeroing capability; two relays to activate other system functions, one to indicate if pressure deviates from the desired set point; an lcd readout shows valve position and displays pressure in a wide range of engineering units; five reprogrammable set points are provided for pressure or position control

Height:

3.500 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A533y0
