Product Name:

Heat spy series dhs-26

Special Features:

Spectral range 8-14; accuracy at 77 degrees f \pm 5 deg- \pm 0.3 pct fs; resolution 1 degrees f/deg c; ambient operating temp 25 to 125 degrees f, \pm 4 to 52 degrees c; temp coefficient \pm 0.1 deg/deg; repeatability \pm 2 degrees f; response time to 95 pct of reading 1 sec; target size at focalpoint 1 in diameter at 2 ft; distance to target size beyond focal point 20: 1; practical working distance 0 to 40 ft; sighting system enclosed laser or telescope; adjustable emissivity range 0.2-1.0; output to recorder 1mv/deg; continuous operating time per battery 40 hrs laser 5 hrs

Functional Description:

Will measur all normal materials, including glass surfaces; optional telescopic sight t for better target definitions as well as led display and fm approved models; expanded range of 0 to 2000 degrees f, \pm 20 to \pm 1000 degrees c without any loss in the \pm 3 pct accuracy of the dhs-24 series; suitable to all but the most demanding maintenance and process applications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
