End Application:

Consol gse

Graduation Unit:

1.000 inches

Scale Range:

+22.0/+32.0 inches of mercury

Cistern Type:

Any acceptable

Tube Bore Diameter:

0.437 inches

Special Features:

Amplified barometer; pressure port 7/16-20 unf male; temperature compensated from -40 to 160 degrees f; out put sensor 0-5 vdc with amplified set up to read 0 vdc at 22 inches of mercury and 5 vdc at 32 inches of mercury

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-a
