Overall Diameter:

6.000 inches

End Application:

Towed array test box

Actuation Type:

Bourdon tube and element

Scale Range:

+0.0/+2000.0 pounds per square inch

Scale Name:

Pounds pressure

Dial Size:

6in

Scale Type:

Circular and dial

Scale Smallest Increment:

10.0 pounds per square inch

Scale Accuracy:

Plus/minus 1/2% full scal (grade 3a)

Actuating Element Material:

Steel

Connection Location:

Bottom

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-b
