Mounting Method:

Flange

End Application:

Valve, temp 6.00ips 23opsi 130 degrees f flge sst

Usage Design:

Engine & compressor cooling system

Thermostat Type:

Thermistor actuated

Operating Temperature Rating:

130.0 degrees fahrenheit

Spring Operated Pressure Relief:

Not provided

Product Name:

Inavy)element assembly, plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T121-c
