Operating Temperature Range:

-200.0/+600.0 degrees celsius

Product Name:

Mfr name; general purpose rtd probe; requested name on input temperature probe

Special Features:

Cthis is a platinum resistance transmitter; ohm rating is 100; alpha is 0.00385; it is encased in a 0.125" diameter stainless steel sheath; the sheath is 225mm (9") long; lead length s 36"

Material:

Steel comp 304 protective tube

Precious Material And Location:

Inside stainless steel sheath platinum

Precious Material:

Platinum

Reference Data And Literature:

Mfg commercial catalog

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27600
