Special Features:

8one chanel power supply readout for 1 pressure sensor; operating temperature 0-50 degrees c, 4.5 place display, 7 segment planar, led red; weight 3.2 kg; meter accuracy .01% of reading p/m 1 digit; zero adjustment range p/m 1.5% full scale; selectable readout

General Description:

Operating voltage 117/234 p/m 15% 50-60 hz; power supply output p/m 15% vdc@600ma, max ripple <10mv

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
