

View Online at <https://aerobasegroup.com/nsn/6685-01-508-1025>

Portability:

Portable

Scale Calibration Method:

Balanced scale beam

Special Features:

Consists of gas lubricated piston pressure gage system, p/n 2465-752-68100, pressure controller, p/n 3930-824-68100, autoprompt converter, p/n 2411-801-68100, weight set (p/n 2465-781-68100), low range piston/cylinder assembly p/n 2460-755, high range piston/cylinder assembly (p/n 2460-756), mid range piston/cylinder assembly (p/n 2460-757), fitting kit (p/n 2465-98-68100), low capacity vacuum pump (p/n 99875-800-68100), high capacity vacuum pump (p/n 99876-800-68100); oxygen clean; temperature range operating 18 to 28 degrees c; 0.2- 17.5 psi low range piston; 1.7- 70.0 psi mid range piston; 2.0- 700.0 psi high range piston; manufacturers name piston pressure gage system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T179-x
