Current Type:

Ac

Ac Voltage Rating:

115.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

End Application:

2465-601-68100 pressure system

Case Material:

Stainless steel

Product Name:

Pneumatic piston gage

Special Features:

Re-entrant type piston pressure gauge, max pressure low 25psi, med 100 psi, high 1000 psi, consist of filter (24-580), filter retainer (2640-4-23), orin (54-703-119) , cylindar housing, operating temp 18-28 degrees c. Clean dry gas, nitrogen or equivalent includes thermometer to monitor gage temperature, accuracy 0.01 percent

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A533y0
