**Current Type:**

Ac

**Ac Voltage Rating:**

115.0 volts

**Frequency Rating:**

Between 50.0 hertz and 60.0 hertz

**End Application:**

2465-601-68100 pressure system

**Case Material:**

Stainless steel

**Product Name:**

Pneumatic piston gage

**Special Features:**

Re-entrant type piston pressure gauge, max pressure low 25psi, med 100 psi, high 1000 psi, consist of filter (24-580), filter retainer (2640-4-23), orin (54-703-119) , cylindar housing, operating temp 18-28 degrees c. Clean dry gas, nitrogen or equivalent includes thermometer to monitor gage temperature, accuracy 0.01 percent

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A533y0
